Monday April 27 — Morning Starter Pack

For: Jesse, first thing Monday morning

Read time: 8 minutes (this doc + 2 quick pre-reads)

Purpose: Get you fully current before touching a single task

What Changed While You Were on Set

Things that moved (you didn't know these):

1. **Running Wild S9 premiere numbers are in.** Delbert sent them April 24. 1.3M viewers, 0.18 A18-49 — modest for FOX, not a hit but not a disaster. The +23% timeslot improvement and 4x Wikipedia spike are the real signals. McConaughey was Ep1 — today's Ep 2 will be the real retention test. EBG will lead with these numbers on May 4. You should know them cold. Full analysis: `running-wild-s9-ratings-analysis-2026-04-26.pdf`

2. **EBG Exhibit 3 is now fully confirmed.** FOX is not on the excluded sponsors list (as expected — it's a media deal, never within Clause 3.5 scope). Hallow and Mettle exclusivity clauses are both active and very broad. Contract position is clean. Full brief: `ebg-contract-analysis-2026-04-25.pdf` (private)

3. **ShipsALot: Susan is actively waiting.** She replied April 24: "Please go ahead and sign the proposal so we can get started." She's already set up a Slack workspace (#modern-savage) for you. Qwilr link: https://shipsalot.qwilr.com/Modern-Savage-aHwI1CSkQd6q — 5 minutes, first task Monday.

4. **Metricool: 7 posts went out/are pending for Apr 26-28.** Dhika and Calvin scheduled them without your review. Whether they auto-published or are queued, you should check these exist and look right when you're back. Not urgent, but worth a 2-minute scan.

5. **Delbert sent 19 images Saturday night at 22:03.** No text context — probably episode materials or show graphics. Worth looking at when you have a moment.

6. **Bear went direct to George Musgrave on the BPS Hub — April 24.** Bear emailed George Musgrave asking "Any update George? And on costs for these units..." You were on set and missed this. The Bear Grylls Hub proposal covers 3 units at Grosvenor Bridge Arch, Battersea Power Station. Bear said "the majority will be customer facing." You had previously told George it's "a package deal" — all 3 or nothing. No response from George visible yet. CJ needs to know Bear is already in direct contact with George when he takes over (the CJ handover previously said "Sam Cotton" — that's a different BPS contact; George Musgrave is the one actually in the thread).

Your Two Pre-Reads for Tuesday (10 minutes total)

Before the Water2 call with Charles Robinson:

Read: `water2-call-prep-2026-04-25.md` (the Critical Update section at the bottom, specifically)

- Key: the quarterly profit share was in the ORIGINAL 2024 deal (not a new proposal). Ask if it's been paid.
- Don't propose royalties — Charles rejected them in writing March 24. Warrants only.
- One number to get: ARR today.

Before anything EBG-related:

Read: `ebg-may4-zoom-prep-2026-04-28.pdf`

- Premiere numbers + how to handle them
- The three contract clauses (3.5, 8.2, 13.1)
- Exhibit 3 confirmed: FOX not listed

Tuesday Sprint — Full Order

Three items removed from Tuesday (no action needed):

- UKIPO: Both fees paid. Modern Savage in examination, Sister Swims accepted. No action.
- Stripe entity decision: defer to Raemy before touching anything.
- BPS Hub: That's CJ from April 29.

What CJ Has from April 29

Full handover brief ready at `cj-handover-brief-2026-04-25.md`. He's covering:

- Calvin contract chase (daily until signed)
- modernsavage.com domain acquisition (MediaOptions only — anonymous, never reveal identity or June deadline. Budget £2K)
- BPS Hub: Sam Cotton at leasing@bpsdc.co.uk (NOT George Musgrave)
- Tattarang/Taki follow-up if no response by April 30
- Becoming X: confirm Bear resignation submitted

Before the May 4 EBG Call (Sunday)

Brief Bear (WhatsApp) before then:

> "May 4 EBG catch-up. Want 10 minutes on the phone before Sunday to align on the Creator Network economics?"

Don't let CJ go into that call without you and Bear aligned. EBG is building their economics argument from the premiere numbers. The May 4 prep PDF has everything you need.

New Since You Left — Additional Items

Olly is in hospital and may not be back yet. He went in April 23. On April 24 he said "still in hospital, likely won't be any updates until Monday." He was the only person reviewing the 7 Metricool posts scheduled for April 26-28 — they went out without any approval while he was down. When you're back, check those posts exist and look right (2-minute scan). More importantly: Olly is the designated content approval authority from May 7 when you sail. If he's not fully operational by then, you need a backup approval authority for Calvin's content during May 7-21. Either CJ steps in on content, or you brief Olly directly before you sail.

Running Wild Ep2 (Tiffany Haddish) airs tomorrow night (Tuesday April 28). You're back Monday — one day of runway before it airs. Brief: `running-wild-tiffany-haddish-brief-2026-04-28.pdf`. Key action: FOX social team (Tyler Garfield) sent a social media toolkit to your inbox April 24 — Calvin needs that email and the Reality Club carousel that dropped Sunday. Patrick Rogers (Tiffany's social manager) will repost correct collabs.

Fat Cow: Ryan Porter is waiting. You missed the April 27 Zoom (on set). WhatsApp him Monday morning to reschedule: "Hey Ryan — really sorry I missed Monday, filming ran longer than expected. Still really excited about this. Can we jump on a call this week?" Full brief: `fat-cow-brief-2026-04-28.pdf`.

UTA are Bear's YouTube agents — and Delbert has been building something for them. On April 1 you had a call with Andrew Lear (UTA, 310-786-4819) and Ty Flynn (UTA, Beverly Hills). Stephanie Smith said "really excited to be working together." Ty checked in on "everything YouTube" April 13. Delbert told Ty on April 17 "I have a few things coming your way" and scheduled a call for the week of April 27. That call has now happened (or is happening). This is Bear's YouTube expansion strategy — UTA handling the deals. This is relevant to EBG May 4: EBG had no role in establishing the UTA relationship.

EBG May 4 prep has been significantly updated since the original brief: now includes the FOX Creator Network structure (Gordon Ramsay/Food, Martha Stewart/Home, Tom Segura/Comedy, Bear/Outdoors), the UTA YouTube context, and a critical note on Bear's April 2 position. Re-read the PDF before May 4.

One Flag: Delbert and The Natural Studios

Bear owns 39% of The Natural Studios (Delbert's company). Bear has an **option to sell 18% at end of 2026** — that's 8 months away. Every conversation with Delbert about the LFG network or FOX Creator Network is happening while Bear holds a major stake and an imminent exit option. Jesse should factor this into how he reads Delbert's commercial pitches — Delbert has strong incentive to advance deals that increase The Natural Studios' value before Bear exercises (or doesn't exercise) that option.

Sailing May 7 — What to Resolve Before You Leave

- Rick Landman callback ← do this Monday
- Bear WhatsApp before May 4 EBG call
- CJ fully briefed and operational
- Calvin Email 1 instruction (conditional on Stripe being live)
- Kylee MacArthur reply on US trademark (entity question first)
- **Olly confirmed operational before you sail** — he's the content approval authority May 7-21. If he's still not well, designate a backup now.
- **Alfred proposal fixes before May 5** — two critical edits needed (Alice placeholder + Costco analogy). Brief at `alfred-pitch-framework-2026-04-28.pdf`.

After May 7, CJ holds everything until May 21.
