Bear Grylls — Equity & Exclusivity Conflict Map

INTERNAL REFERENCE • APRIL 2026 • SCREEN NEW PITCHES AGAINST THIS BEFORE TAKING TO BEAR

Bear now has equity or exclusivity in enough categories that a new pitch can conflict with an existing stake without anyone realising. This is a first screen — not legal advice, but a flag system.

Rule: Before pitching Bear on anything, run it against this map first.

The Map

VENTURE	BEAR'S POSITION	KNOWN EXCLUSIVITY ZONE	SCREEN NEW PITCHES FOR
Modern Savage	Investor + ambassador	Organ/primal supplements (UK + US)	Any supplement brand, especially organ-based or "ancestral nutrition"

Three conflicts that need resolving before May 21

1. Modern Savage vs Organised Nutrition

Both are organ supplement products. If Bear has equity in Organised and is also the face of Modern Savage, there is a conflict — either legal or reputational. Jesse handles Organised directly and has not discussed it with Junior, which suggests sensitivity. Before Modern Savage scales its Bear-branded marketing, this needs to be understood — ideally resolved with CJ or Raemy.

2. BGSA exclusivity scope

BGSA holds an exclusive license for Bear's survival education brand. "Survival education" is broad — it could cover Adventure Garage, BecomingX, Running Wild, and any future survival-focused content deal. The boundary between Bear's general content and BGSA's licensed territory is probably not clearly drawn. Any new content deal with a survival angle should be checked against the BGSA license first.

3. Natural Studios exit option + EBG

Bear holds 39% of Natural Studios and has an exit option at end of 2026. EBG's $25K/month is tied to Running Wild and Adventure Garage — both Natural Studios productions. If Bear exercises the exit option, EBG's standing becomes unclear. This needs to be understood before the window arrives in December 2026 — it's a structurally important question for the May 4 EBG call too.
